

# ATLANTIS

*below the surface*

*a comprehensive consultancy and installation service for all types of audio visual systems and equipment throughout London and the home counties*

## Press Release

**“Atlantis launches two exciting new concepts at Decorex - Stand F185”**

**22<sup>nd</sup> September 2007**

Atlantis AV Solutions, has gone from strength to strength since Decorex 2006, and now comprises two separate divisions within the company:

- Its unmistakable “Metamorphic Frames”, business, with an even broader range of art from which to select
- Its fast-developing AV business, where more clients have been approaching Atlantis since last Decorex to project manage many of their broader audio visual and home entertainment projects.

It is the company’s eponymous “Metamorphic Frames” which originally set the company apart from others, designed to complement all leading makes and sizes of plasma and LCD screens.

When not in use, the TV screen is cunningly hidden behind a work of art, controlled to appear and disappear at the touch of a remote!

Atlantis will be introducing two new “Metamorphic Frames” at Decorex this year.

- The MF Drinks cabinet – a space-saving solution in any area of the home or office
- The MF Hi-Fi cupboard – an ingenious hidden solution for those miles of wires and sockets
